**SACO SHIPPING S.A.  
NAPOLEON 565 OF. 706 LAS CONDES  
SANTIAGO  
CHILE**

**& Warehouse location at Teisa Terminal de Carga Aeropuerto A.M.B.**

Dear Agent,

**APPROVED**

We are pleased to advise you that the Agency Administrator has approved your application for registration as a Cargo Agent for the Members of the International Air Transport Association (IATA). The effective date of your approval is **11 NOVEMBER 2016**.

The IATA Numeric Code **75-1 0088 0013** has been assigned to your Agency.

Please ensure that your Code Number is inserted in the appropriate box on each air waybill you issue. It is also helpful to quote your number in any correspondence with Member Airlines and this office.

For your records, we enclose copy of your Cargo Agency Agreement executed by IATA.

Members may retroactively pay remuneration on international air cargo transportation sold by your Agency from the date your application was received in this office, that is, from **11 NOVEMBER 2016**. All requests for such payment must be addressed to the Carrier concerned and must be substantiated with copies of the relevant air waybill issued.

Please note that the Approval granted is based upon satisfactory facilities at the premises that were investigated, your head office and warehouse shown above. Pursuant to the governing rules, you must notify IATA of all changes, such as ownership, legal status, name or address. Therefore, you are requested to advise IATA of any changes concerning the address where your organization is registered.

The above, however, does not prevent you from operating from offices and warehouses anywhere in your country.

A list of IATA Member Airlines appointing IATA Cargo Agents by General Concurrence is included in the Cargo Agent's Handbook, herewith enclosed. Member Airlines not listed under General Concurrence will, if they so wish, individually inform you in writing that they specifically appoint you as an Agent and will issue a Certificate of Appointment.

Enclosed, please find the IATA Dangerous Goods Access Key Code. It is important that all of your offices have a copy of these Regulations and that your staff, be familiar with them, who according to procedures must regularly update their knowledge by following appropriate courses every two calendar years.

We also enclose a decal of the IATA Crest together with artwork incorporating the IATA logo.

Please accept our best wishes for a successful future.

Sincerely,

Diana Larrañaga  
Agency Administrator
